 National Research Mobility Portal
 Национален портал за мобилност на учените

The **National Research Mobility Portal** provides information for incoming and outgoing mobile researchers on:

- ✓ entering and working in Bulgaria
- ✓ social and health insurance
- ✓ banking and finance
- ✓ finding accommodation
- ✓ coming with a family in Bulgaria
- ✓ traveling in Bulgaria

The National Portal is linked to other mobility portals and to the European Researchers' Mobility Portal <http://europa.eu.int/eracareers/>.

Националният портал за мобилност на учените

осигурява информация за пристигащите и заместващите учени за:

- ✓ влизане и работа в България
- ✓ социално и здравно осигуряване
- ✓ банки и финанси
- ✓ намиране на жилище
- ✓ пристигане със семейство в България
- ✓ пътуване из България

Националният портал е свързан с други портали за мобилност и с Европейския портал за мобилност на учените <http://europa.eu.int/eracareers/>.

If you are a researcher thinking about going to BULGARIAN SOUTH CENTRAL REGION, look here for career opportunities and find relevant information and assistance.

Our Regional Research Mobility Center, established at the Department for Information and In Service Teachers Training - Trakia University and located in Stara Zagora, is part of a Bulgarian Network of Mobility Centers. We are an initiative of European Commission that wants to promote the idea of the European Research Area and mobility among researchers. RRCM is founded as the result of carrying out the project BulRCMNet for forming the BulNetwork of Regional Research Mobility Centers to perform the role of a regional executive and coordinating section in the Network.

The main objective of our Mobility Center is to provide a comprehensive assistance for mobile researchers and thus to facilitate the mobility of researchers beyond borders. With our help the researchers will be able to obtain all relevant and up-to-date information on the following issues:

- > visa and entry conditions;
- > work permissions, working opportunities;
- > living conditions and accommodation;
- > salaries and taxes, pension rights;
- > healthcare, social security and educational system;

TECHNICAL UNIVERSITY OF VARNA SCIENTIFIC AND RESEARCH CENTER

The Scientific and Research Center (SRC) was established in 1962 as part of the Technical University of Varna (TU-Varna) in order to

concentrate and coordinate the activities of the academic and teaching staff in the field of research and applied science.

During its long history SRC has been acknowledged as a scientific and research center playing an important role in Bulgarian science, technics and technologies. For the last decade it has won the third place among the scientific and research centers in the country and the second one among the technical universities according to the amount and range of activities.

Departments are the basic scientific sections of the faculties.

Scientific production laboratories (SPL) and scientific-production groups (SPG) have been established within the latter to carry out the main part of the applied engineering activities.

The main SCR objectives are connected with design, technologies, repair, analyses, consultations, expertise in the field of mechanical, tool, electrical and power engineering, naval architecture, electronics, informatics, communications and automation.

The scientific research activities are in the following directions:

- * technologies for casting and precise machining of instrument equipment;
- * technological processes for chemical and heat treatment, welding, metal coatings;
- * systems for diagnostics of power objects;
- * vibrodiagnostics of technical objects;
- * systems for automated control of machines, equipment and technological processes;
- * industrial and electronic control systems for power systems;
- * provision of software for various technological, power and transport objects;
- * developments in the field of ecology.

The Technical University of Varna (TUV) was founded in 1962 with a Decree of the Council of Ministers of the Peoples Republic of Bulgaria and Act of the National Assembly. The purpose of its creation is to ensure conditions for education of engineering staff for the shipbuilding, transport, machine building, electric power engineering and communications. These will be necessary for the needs of the growing industrial complexes in the North-East part of the country, profiling in heavy chemistry, shipbuilding and ship repair, engines manufacturing, transport, electric power industry, electronics and communications. Initially the university was named Higher Institute of Mechanical and Electrical Engineering - Varna and incorporates three faculties: Mechanical Engineering, Electrical Engineering and Shipbuilding.

Over the years the Higher Institute of Mechanical and Electrical Engineering - Varna grew from a small institute, preparing engineers to satisfy the regional needs to a large Technical University of national significance, educating students in 23 specialties. During its 40 years of existence, the Technical University of Varna gave birth to 28976 specialists with higher education in the fields of the Technical Sciences, Natural Sciences, Mathematics and Informatics, Social, Economic and Legal Sciences and Pedagogic Sciences in Engineering and Technologies.

The academic staff of the university is divided into 7 faculties, consisting of 31 departments. The university has 8 buildings with many lecture halls, over 250 laboratories, a large library, sports and manufacturing facilities

as well. The University has resting facilities on the Black Sea Coast near Varna and in the Rhodopa mountains town of Chepelare. The quality of the education at the Technical University of Varna has been recognized and noticed by a number of **awards**:

- * Computer systems and technologies students win prize places every year in the software Olympiads, organized by the American Association of Computer Machines;

- * Students from the Technical University of Varna won prizes in the National Mathematics Olympiad in 2002;

- * Student Vesselin Kanchev from the Computer systems and technologies is among the winners of the Linux Competition, organized by IBM;

- * Post-graduate student Antonia Georgieva has been awarded the Mini Nobel Prize for research work.

The Technical University of Varna is in the **Guide of Universities** published by the European Union.

Founded in 1962, the Technical University of Varna is a **state university** with a history of academic excellence. The university prepares students for a variety of career fields of the technical sphere of human knowledge according to the state classification.

- * Technical Sciences;

- * Natural Sciences, Mathematics and Informatics;

- * Social, Economic and Law Sciences;

- * Pedagogical Sciences.

Technical University of Varna conducts education in one of the following forms:

- * **full time (regular)**

- * **part time (extramural)**
